Subject/ Title: Request Approval to Submit a Grant Application to the Office of Economic Adjustment Grant in Support of Local Redevelopment Authority Administration and Implementation of the Riverbank Army Ammunition Plant Reuse Plan Activities

From: Jill Anderson

Submitted by: Debbie Olson, Executive Director

RECOMMENDATION

It is recommended that the Local Redevelopment Authority (“LRA”) Board of Directors (“Board”) adopt a Resolution authorizing the submission of grant request to the Office of Economic Adjustment for funds in support of the Local Redevelopment Authority administration and to assist in activities associated with implementation of the Riverbank Army Ammunition Plant Reuse Plan.

STAFF SUMMARY

The Riverbank Local Redevelopment Authority (LRA) was formed in accordance with Base Closure and Realignment (BRAC) law and is the federally recognized entity to address all local base closure issues. Under the BRAC Redevelopment Act, the LRA has several key responsibilities. These include preparing the reuse plan, identifying and recommending appropriate disposal mechanisms to implement the reuse plan, initiating interim reuse and receiving conveyances of property. Additionally, the LRA is responsible for maintenance and operations of the Riverbank Army Ammunition Plant on behalf of the Army until conveyance.

When the Department of Defense recognized the City of Riverbank as the Local Redevelopment Authority April 6, 2006, it became eligible for grants offered through the Office of Economic Adjustment to complete the work associated with the above noted responsibilities.
OEA is the Department of Defense’s primary source for assisting communities that are adversely impacted by base closures or realignments. In this capacity, OEA offers technical and financial assistance to BRAC communities and coordinates the involvement of other Federal Agencies. OEA also supports the implementation phase with similar grants. OEA grants are funded, for eligible expenses, with 90% coming from OEA and the remaining 10% funded by the Agency, City or other funding source (such as grants). The Riverbank LRA is self-supporting, and takes no assistance from the City’s General Fund. Match is provided by lease revenue or other grant support.

The BRAC planning process has been complex and over the past seven years has involved the use of consultants and staff in exploring various land use options, preparing applications to various federal agencies, analyzing options for conveyance and ultimately identifying a successful pathway to reuse of the former military facility. OEA has provided funds to support staff and consultants from the beginning.

Since inception, the LRA has:

- completed and submitted a community-supported Reuse Plan and Homeless Submission
- developed and submitted a no-cost Economic Development Conveyance Application (“EDC”) to the Army
- developed and negotiated a master lease for operations and protection of the Riverbank Army Ammunition Plant
- developed and negotiated a Memorandum of Agreement (“MOA”) to the EDC
- developed and negotiated an approval letter to clean and dispose of Army surplus personal property
- developed an environmental services cooperative agreement for the cleanup of contaminated property

The LRA continues to work toward a transfer of the site at the earliest possible opportunity.

A draft grant request for $552,226 has been prepared for funding July 1, 2013 through June 30, 2014. The funds will cover LRA staff salaries and benefits, LRA operating expenses and contractual services for legal and strategic planning support. The request is preliminary and final award amount subject to changes as a result of 1) City labor negotiations; 2) Health Plan costs; and, 3) OEA approvals. A draft budget proposal for the OEA grant is attached.

**FISCAL IMPACT**

The preliminary grant request total is $552,226, with $497,492 from OEA and a match of $57,734 coming from leasehold revenue.
