AFFIDAVIT FOR THE ENGINEER'S ANNUAL LEVY REPORT

City of Riverbank
Stanislaus County, State of California

Crossroads Landscaping and Lighting District

This Report describes the District including the improvements, budgets, parcels and proposed assessments to be levied for Fiscal Year 2017/2018, as they existed at the time of the passage of the Resolution of Intention. Reference is hereby made to the Stanislaus County Assessor's maps for a detailed description of the lines and dimensions of parcels within the District.

The undersigned respectfully submits the enclosed Report as directed by the City Council.

Dated this 13th day of June, 2017.

Willdan Financial Services
Assessment Engineer

INTRODUCTION

Pursuant to the provisions of the Landscaping and Lighting Act of 1972, being Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500 (hereafter referred to as the “1972 Act”), and in compliance with the provisions of the *California State Constitution, Article XIID* (hereafter referred to as the “Constitution” or “Proposition 218”), this Engineer’s Report (hereafter referred to as “Report”) has been prepared as required pursuant to Chapter 3, Section 22622 of the 1972 Act, in connection with the proceedings required for the annual levy of assessments for the district designated as:

Crossroads Landscaping and Lighting District

(hereafter referred to as “District”). This Report has been prepared and presented to the City Council of the City of Riverbank (hereafter referred to as “City”), County of Stanislaus, State of California, for their consideration and approval of the proposed improvements and services to be provided within the District and the levy and collection of annual assessments related thereto for Fiscal Year 2017/2018. In conjunction with this Report, the City Council proposes to levy and collect the annual assessments described herein on the County tax rolls, to provide ongoing funding for the costs and expenses required to service and maintain the landscaping and lighting improvements associated with and resulting from the development of properties within the District. Each fiscal year, utilizing the historical and estimated costs to maintain the improvements that provide special benefit to properties within the District, the City establishes the District’s assessments. The costs of the improvements and the proposed annual assessments budgeted includes the estimated expenditures, deficits, surpluses, revenues, and reserve fund balances determined to be necessary to provide the improvements that are of special benefit to properties within the District. Each parcel is assessed proportionately for only those improvements and expenses for which it has been determined that the parcel receives special benefit.

This Report describes the District and changes to the District including modifications to the improvements or organization (zones of benefit), and the proposed budgets and assessments applicable for Fiscal Year 2017/2018. The maintenance, operation and servicing of the improvements associated with specific areas of the District that provide a special benefit to the properties within those areas are grouped into benefit zones that are identified in this District as Zones. These Zones identify the properties within various regions of the District that incorporate the undeveloped properties, commercial developments or residential subdivisions that benefit from specific improvements that were installed in connection with the development of those properties or directly benefit those properties. While many of the improvements provide special benefits to only the properties within a particular Zone, some improvements are associated with all properties within the District and were installed as part of the overall development of properties within the District and are considered a regional special benefit. The costs of providing the regional improvements are proportionately shared by all assessed properties, while the Zone specific improvements are proportionately shared by only the properties within that

Zone. Each parcel's annual assessment is therefore a combination of their proportional share of the regional improvements and their proportional share of their Zone improvements.

This Report has been prepared in accordance with the provisions of the 1972 Act and describes the District and assessments proposed for Fiscal Year 2017/2018 including

- A general description of the District including any modifications to the District structure, annexation of territory to the District or property development that facilitates any changes to the boundaries of the District or Zones therein;
- A description of the proposed improvements for the fiscal year including any substantial changes or expansion of the improvements or services;
- The method of apportionment used to calculate each parcel's respective special benefit;
- Financial information for the fiscal year including the district budgets that incorporate all anticipated maintenance expenditures, incidental expenses and fund balances including any deficits or surpluses from the previous fiscal year and any authorized reserve funds to establish the proposed annual assessments for each parcel within the District proportionate to each parcel's special benefits.

For the purposes of this Report, the word "parcel" refers to an individual property assigned its own Assessment Number by the County of Stanislaus Assessor's Office. The County of Stanislaus Auditor/Controller uses Assessment Numbers and specific fund numbers to identify properties assessed for special district benefit assessments on the tax roll.

Pursuant to the 1972 Act, the City Council shall conduct a noticed annual public hearing to consider all public comments and written protests regarding the District and assessments for that fiscal year. Upon approval of the assessments by the City Council, the assessments for Fiscal Year 2017/2018 shall be submitted to the Stanislaus County Auditor/Controller for inclusion on the property tax roll for each parcel.

A. LEGISLATIVE AUTHORITY

The District was formed in 2001 and is annually levied pursuant to the 1972 Act and in compliance with the *California Constitution, Article XIII D, Section 4*. (Enacted by the passage of Proposition 218 in November 1996). Accordingly, parcels within the District are assessed for only the reasonable cost of the proportional special benefit conferred on those parcels and the assessments and assessment range formula described in this Report have been or shall be approved by the property owners through a property owner protest ballot proceeding. The maximum assessments including the assessment range formula for the Regional (District-wide) improvements as well as Zones 1, 2 and 3 were approved by the property owners when the District was formed. Subsequently, Zone 4 was established in March 2003 in connection with several new residential developments within the District and those property owners approved the assessments associated with the Zone's improvements.

Pursuant to the provisions of the California Constitution, all new or increased assessments (the incremental increase) are subject to both the substantive and procedural requirements of *Article XIID, Section 4*, including a property owner protest proceeding (property owner assessment balloting). This Report consists of five (5) parts:

Part I

Plans and Specifications: Provides an overall description of the District and the improvements to be provided within said District and the zones of benefit (“Zones”) therein. The District Zones are based on the various improvements and services that provide a special benefit to each property within the District.

Part II

Method of Apportionment: A discussion of benefits the improvements provide to properties within the District and the method of calculating each property’s proportional special benefit and annual assessment. The Assessment Range Formula described herein defines the maximum assessment that may be imposed in subsequent fiscal years without additional property owner ballot proceedings.

Part III

District Budget: An estimate of the annual costs to maintain and service the improvements installed and constructed as part of the development of properties within the District. The maximum assessments and assessment range formula established for this District was originally based on the development plans and estimated annual cost and expenses associated with the proposed improvements and developments at build-out. The proposed assessments to provide the improvements for Fiscal Year 2017/2018 are based on the estimated net annual cost of operating and maintaining the District improvements for the year.

Part IV

District Diagram: A Diagram showing the boundaries of the District is provided in this Report and includes all parcels that will receive special benefits from the improvements. Parcel identification, the lines and dimensions of each lot, parcel and subdivision of land within the District, are inclusive of all parcels as shown on the Stanislaus County Assessor's Parcel Maps as they existed at the time of the passage of the Resolution of Intention, and shall include all subsequent subdivisions, lot line adjustments or parcel changes therein. Reference is hereby made to the Stanislaus County Assessor’s maps for a detailed description of the lines and dimensions of each lot and parcel of land within the District.

Part V

Assessment Roll: A listing of the calculated assessments for each parcel as required pursuant to the provisions of the California Constitution. Said assessments represents each parcel’s proportional amount of the improvement costs for Fiscal Year 2017/2018

based on the estimated net annual cost to maintain and service the improvements as outlined in the District budget and method of apportionment described herein.

PART I — PLANS AND SPECIFICATIONS

A. DESCRIPTION OF THE DISTRICT

The District consists of all lots, parcels and subdivisions of land located in the development area known as the “Crossroads Specific Plan.” The Crossroads Specific Plan/District covers approximately five hundred eighty-two (582) acres in the southwest region of the City. The District is generally located:

- South and West of the MID Main Canal centerline;
- East of the centerline of Oakdale Road; and,
- North of the centerline of Claribel Road.

The District currently includes approximately

- Three hundred and forty-two (342) acres of low/medium density single-family residential housing currently subdivided or being subdivided, representing two thousand fourteen (2,014) residential units;
- Sixty-five (65) acres of commercial development or planned commercial development in the southwest section of the District;
- Thirty-five (35) acres of undeveloped land identified for Public/Quasi-Public/Commercial development or possible residential development; and
- One hundred forty (140) acres of streets, easements, open space and public lands.

A listing of all parcels within the District is provided in the Assessment Roll contained in Part V of this Report.

All improvements to be acquired, maintained and serviced in the District directly result from the development of properties within the Crossroads Specific Plan. They consist of parkway and median landscaping, street lighting, traffic signals, parks, trails, open space areas and appurtenant facilities. All the improvements to be funded by District assessments are public improvements within the District boundaries or adjacent public areas and right-of-ways constructed and installed as part of the development plans and agreements required and/or necessary to enhance the special benefits to each lot, parcel and subdivision therein. Properties within the District are grouped into zones of benefit (“Zones”) based on their proximity and benefit from the various improvements provided by the District. Each Zone incorporates specific improvements that are associated with the properties in that Zone and the annual cost of providing those improvements are proportionately shared by the properties in that Zone. These Zones are discussed in more detail later in this section of the Report.

B. DESCRIPTION OF IMPROVEMENTS AND SERVICES

Improvements Authorized by the 1972 Act

As generally defined by the Landscape and Lighting Act of 1972 and applicable to this District, improvements and the associated assessments may include one or more of the following:

1. The installation or planting of landscaping;
2. The installation or construction of statuary, fountains, and other ornamental structures and facilities;
3. The installation or construction of public lighting facilities including but not limited to street lights and traffic signals;
4. The installation of park or recreational improvements including but not limited to all of the following:
 - a. Land preparation, such as grading, leveling, cutting and filling, sod, landscaping, irrigation systems, sidewalks, and drainage;
 - b. Lights, playground equipment, play courts, and public restrooms;
 - c. The acquisition of land for park, recreational, or open-space purposes;
5. The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof;
6. The acquisition of any associated existing improvement;
7. The maintenance or servicing of any of the foregoing including the furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement including, but not limited to:
 - a. Repair, removal, or replacement of all or any part of any improvements;
 - b. Grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities;
 - c. Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury;
 - d. The removal of trimmings, rubbish, debris, and other solid waste;
 - e. The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti;
 - f. Electric current or energy, gas, or other illuminating agent for any public lighting facilities or for the lighting or operation of any other improvements;
 - g. Water for the irrigation of any landscaping, the operation of any fountains, or the maintenance of any other improvements;

8. Incidental expenses associated with the improvements including, but not limited to:
 - a. The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
 - b. The costs of printing, advertising, and the publishing, posting and mailing of notices;
 - c. Compensation payable to the County for collection of assessments;
 - d. Compensation of any engineer or attorney employed to render services;
 - e. Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
 - f. Costs associated with any elections held for the approval of a new or increased assessment.

Overall District Improvements

The purpose of the District is to ensure the ongoing maintenance, operation and servicing of public landscaped areas and street lighting improvements within the District boundaries installed in connection with the development of properties within the Crossroads Specific Plan. These improvements may include but are not limited to all materials, equipment, utilities, labor, appurtenant facilities and incidental expenses related to those improvements. The improvements to be maintained and funded entirely or partially through the District assessments generally include the following:

- Parkway, median and traffic circle landscaping on the arterial and collector streets within the District boundaries;
- Parkway and perimeter landscaping associated with individual properties or developments including perimeter fencing, retaining walls, entryways, monuments; or similar improvements associated with the properties or specific developments within the District;
- Natural and passive parks, trails, open space areas, and landscape reserve areas that are maintained and/or abated;
- Active parks including all landscaping, lighting, equipment and facilities (i.e., playgrounds, tot-lots, ball fields, restrooms, sidewalks, landscaped areas and greenbelts);
- Public lighting facilities including street lighting, traffic signals, lighting within all parks and other public areas;
- All appurtenant facilities, equipment, materials and utilities related to the aforementioned improvements.

The estimated annual cost to provide and maintain the improvements within the District shall be allocated to each property in proportion to the special benefits received. The Method of Apportionment described in this Report utilizes commonly accepted

assessment engineering practices and have been established pursuant to the 1972 Act and the provisions of the Constitution.

Regional — District-wide Benefit Improvements

In reviewing the overall improvements within the District as they currently exist and as outlined in the Crossroads Specific Plan, it has been determined that many of the District's improvements including various parks, trails, traffic signals, and arterial landscaping and street lighting provide a direct and special benefit to all properties within the District and are considered "Regional" (District-wide) improvements and the cost of providing these improvements shall proportionately be shared by all assessed parcels within the District in the fiscal year that the improvements are installed or accepted for maintenance by the City. To the extent that any portion of these improvements may be considered general benefit, that portion of the improvement costs is not assessed to the properties within the District. The following improvements have been identified as Regional improvements for the District:

Public Street Lighting: Public street lighting on the District's arterial and collector streets as well as various other public areas are included and funded by the regional assessments established for the District and may include, but is not limited to electrical energy, lighting fixtures, poles, meters, conduits, electrical cable and associated appurtenant facilities associated with:

- All public street lights and appurtenant facilities located on the arterial streets and a portion of the collector streets within the District including but not limited to Oakdale Road, Claribel Road, Roselle Avenue, Morrill Road, Crawford Road, Chancellor Way, Homewood Way, Prospectors Parkway and Squire Wells Way. (A portion of the street lighting costs associated with some of the collector streets listed above are also identified and allocated as Zone specific benefits.);
- Traffic signals, safety lighting at intersections, and other lighting facilities within public areas such as the trails and parks within the District that was necessary for development of properties within the District.

Median Landscaping: Median island landscaping on the arterial and primary collector streets including the traffic circles within the District are included and funded by the regional assessments established for the District and may include, but is not limited to ground cover, shrubs, trees, monuments, hardscape amenities, ornamental structures, and irrigation and drainage facilities identified as:

- The three (3) designated traffic circles, two located on Chancellor Way and one on Crawford Road with an estimated 78,890 square feet of landscaped area (1.81 acres) including significant turf and high density landscaping and amenities.
- Center medians on Crawford Road between Oakdale Road and Roselle Avenue, totaling approximately 2,360 linear feet and an estimated 33,040 square feet of landscaped area (0.76 acres);

- Center medians on Oakdale Road between Morrill Avenue and the Business Park Entryway, totaling approximately 2,500 linear feet and an estimated 30,000 square feet of landscaped area (0.69 acres); and;
- Center medians on Roselle Avenue between Crawford Road and Claribel Road, and Roselle Entryway, totaling approximately 1,580 linear feet at an estimated 18,960 square feet of landscaped area (0.44 acres).

Parkway Landscaping Parkway (street right-of-way) landscaping on the primary access streets within the District are included and funded by the regional assessments established for the District and may include, but is not limited to ground cover, shrubs, trees, hardscape amenities, irrigation and drainage facilities, entryway monuments, sidewalks, and block walls, or other fencing within the public right-of-way or landscape easements identified as:

- Landscape reservation areas on the north side of Claribel Road between Oakdale Road and Roselle Avenue that includes or will include:
 - Approximately 4,200 linear feet of low density landscaping totaling an estimated 50,400 square feet (1.16 acres);
 - An estimated 80 to 100 trees; and
 - Approximately 10,000 square feet of sidewalk and hardscape amenities.
- Landscape parkway areas on the east side of Oakdale Road between the MID Main Canal extending south to the Business Park Entryway that includes or will include:
 - Approximately 4,210 linear feet of moderate density landscaping, an estimated 22,100 square feet (0.51 acres);
 - An estimated 100 to 150 trees; and
 - Approximately 23,000 square feet of sidewalk and hardscape amenities.
- Landscaped parkway areas on both the east and west sides of Roselle Avenue from a point 500' north of Claribel Road, north to the MID Main Canal (District Boundary) that includes or will include:
 - Approximately 4,230 linear feet of high density landscaping on each side of Roselle Avenue, totaling an estimated 21,000 square feet (0.5 acres);
 - An estimated 100 to 200 trees; and
 - Approximately 16,000 square feet of sidewalk and hardscape amenities.
- Landscape parkway areas on Morrill Road between the MID Main Canal extending west approximately 244 feet to a point midway between Homewood Court and Huntley Court totaling approximately 2,570 square feet of landscaping (0.059 acres);

Trails and Bike Paths: Within the District (The Crossroads Specific Plan) there is over 33,500 linear feet of trails and bike paths encompassing approximately 300,000 square

feet of surface area that are included and funded by the regional assessments established for the District. In most areas these trails and pathways are surrounded by large areas of landscaping as much as seventeen square feet of landscaped area for every linear foot of trail. The trail system may include, but is not limited to turf, ground cover, shrubs, trees, natural vegetation, irrigation and drainage facilities, various trail and bike path surfaces, concrete sidewalks, lighting, fencing, rest areas, ornamental structures, signs, and various hardscape amenities. These trail and pathway areas are generally identified as:

- Claribel Road bike path area located between Oakdale Road and Roselle Avenue that includes:
 - Approximately 5,200 linear feet of low density landscaping, an estimated 23,000 square feet of landscaped area;
 - An estimated 80 to 150 trees; and
 - Approximately 52,000 square feet of bike paths and hardscape amenities.
- The trail area along the MID Lateral # 6 canal that includes:
 - Approximately 16,000 linear feet of moderate density landscaping, an estimated 240,000 square feet of landscaped area;
 - An estimated 200 to 400 trees;
 - Approximately 128,000 square feet of trail and hardscape amenities; and
 - An estimated 32,000 linear feet of fencing associated with the trail and landscaped areas.
- The trail area adjacent to the MID Main Canal between Claribel Road and Morrill Road includes:
 - Approximately 4,800 linear feet of moderate density landscaping, an estimated 72,000 square feet of landscaped area;
 - An estimated 80 to 150 trees;
 - Approximately 38,400 square feet of trail and hardscape amenities; and
 - An estimated 4,800 linear feet of fencing associated with the trail and landscaped areas.
- The Oakdale Road bike path area located between Morrill Avenue and Claribel Road on the east side of Oakdale Road that includes:
 - Approximately 4,900 linear feet of low density landscaping, an estimated 9,800 square feet of landscaped area;
 - Approximately 49,000 square feet of bike path and hardscape amenities.

Pedestrian Connection Sites: Within the District there are fifteen (15) pedestrian connection sites that provide pedestrian access from various residential developments to the trail system or the arterial or collector streets within the District. While these pedestrian connection sites are within specific residential subdivisions, these connection sites

provide pedestrian access to more than just the parcels within those subdivisions and are therefore included and funded by the regional assessments established for the District. These pedestrian connection sites include:

- Pedestrian Connection on Clock Tower Court east of Oakdale Road, south of Crawford parkway consisting of approximately 1,220 square feet of landscaped improvement area.
- Nine Cul-de-sac pedestrian connection points along the MID Lateral #6 trail at Blazer Court, Feather Court, Mayberry Court, Haystack Court, Horsetail Falls Court, Winding River Court, Gold River Court, Riverbed Court, and Coolwater Court; consisting of approximately 1,440 square feet of landscaped improvement area and 450 square feet of sidewalk area.
- Four Cul-de-sac pedestrian connection points on the south side of Crawford Road at Silvervale Court, Etherington Court, Medallion Court, and Clamistake Court; consisting of approximately 640 square feet of landscaped improvement area and 200 square feet of sidewalk area.
- One Cul-de-sac pedestrian connection point on the south side of Morrill Road at Homewood Court consisting of approximately 160 square feet of landscaped improvement area and 50 square feet of sidewalk area.

Miscellaneous Landscape Area: Within the District there are various landscaped areas that are included and funded by the regional assessments established for the District these landscaped areas include:

- Landscaping surrounding the water tank between the MID Main Canal and Saxon Way that has approximately 1,200 square feet of landscaped area, 350 linear feet of walls and 220 linear feet of fencing.
- Landscaped area associated with the Black Sands Creek Way Drainage Channel located northwest of the MID Lateral # 6 Canal and east of Roselle. This area includes approximately 47,560 square feet of landscaping and approximately 45 trees.

Parks and Open Space Areas: Within the District (The Crossroads Specific Plan) there is approximately thirty acres of park/open space. The park/open space improvements within the District were designed to provide a wide range of recreational opportunities as well as large areas of open space and green belts throughout the District. These areas may include, but are not limited to turf, ground cover, shrubs, trees, natural vegetation, ball fields, various courts, restroom facilities, play equipment, picnic areas, tot lots, lighting, ornamental structures, irrigation and drainage facilities, and various hardscape amenities. There are three primary park locations within the Crossroads Specific Plan.

- A Community Park, named Silva Park, includes over nine acres of parkland in the northwest region of the District located at Novi Drive and Chancellor Way. The park design consists of dense shrub areas, numerous trees, large turf areas and ball fields as well as other recreational facilities totaling an estimated 370,260 square feet of landscape improvements. Although this park is located

well within the boundaries of the District, it is considered a Community Park and as such, will likely be utilized by property owners outside the District on a regular basis, however since the park is in the middle of the Crossroads, and utilized mostly by residents of the Crossroads, only a small portion of this park's maintenance and operation costs has been identified as a general benefit and is not assessed to property owners within the District. (It has been determined that up to a third of this park's total maintenance cost is considered general benefit).

- **Neighborhood Parks:** There are approximately twenty-one acres of land that have been completed as neighborhood parks. The neighborhood parks were specifically planned for the use and benefit of properties within the District. There are two primary neighborhood parks located within the District boundaries to optimize their use by the property owners. One park is located near the MID Main Canal trail system in the northeast region of the District and the other park is located just north of the Hetch Hetchy right-of-way in the southeast region of the District, which is also accessible by the trail system. The two neighborhood parks include approximately 914,760 square feet of landscaping that includes various types of landscape amenities ranging from natural non-irrigated open space area to large turf areas.

Local Benefit Improvements (Zone Specific)

The establishment of benefit zones is often necessary to equitably apportion the cost of the District improvements to those properties that receive special benefits from various improvements. Although several of the improvements installed and maintained within the District provide a direct and special benefit to all properties (Regional Improvements) and are assessed to all benefiting properties within the District, some improvements benefit only certain subdivision, parcels or regions of the District and are typically installed as part of developing properties in those areas.

Improvements such as perimeter landscaping (non-arterial landscaping), perimeter fencing and residential street lighting are typically associated with specific subdivisions or properties and provide special benefits to only those properties (in some cases adjacent properties as well). These types of improvements are often identified as "Local" or "Tract Specific" improvements. It was determined that the cost of maintaining such improvements should be the financial obligation of the properties benefiting and the law requires that only those properties be assessed. To equitably apportion these improvement costs to only the benefiting properties, parcels within a district have been grouped into local benefit zones ("Zones"). Each of these Zones consists of specific parcels and subdivisions that benefit from similar or specific local improvements. The cost of providing local improvements within each Zone is proportionately spread to only the parcels within that Zone.

When the District was formed, the District included only a few residential subdivisions and much of the District was vacant undeveloped land. At that time, three zones of benefit were established:

- Zone 01 included parcels within the residential developments north of Morrill Road that had limited improvements (street lighting and perimeter fencing).
- Zone 02 incorporated the new residential developments south of Morrill Road, which installed tract specific street lighting and landscaping along the perimeters of these developments.
- Zone 03 incorporated the vacant undeveloped land that made up the rest of the District and because these properties had not yet developed, the Zone provided no local improvements and assessments for properties. Zone 03 consisted of only their proportional share of the costs to provide the Regional Improvements within the District.

In 2003, a significant portion of the undeveloped land was moving forward with development and Zone 04 was established to identify the improvements and properties associated with those residential developments, thus providing an appropriate allocation of the costs associated with the local landscaping and lighting improvements resulting from those developments. The following provides more specifics about the District's four local Zones:

Zone 01 is located north of Morrill Road, east of Oakdale Road, and south and west of the MID Main Canal. This Zone includes all parcels of land identified on the Tract Maps for the subdivisions known as Oak Crest Estates; Hayes No. 1; Stonebridge No. 2. These subdivisions and parcels include one hundred thirty-eight (138) single-family residential parcels, one (1) multifamily residential parcel, and one (1) quasi/non-residential parcel. In addition to Regional improvements, these properties benefit and are assessed for the following:

- The maintenance, abatement and minor repairs of the block wall (approximately 3,350 linear feet) located along the south side of the MID Main Canal adjacent to the parcels within the Zone. Maintenance and abatement may include the occasional clearing and removal of weeds, debris, rubbish, and other solid wastes within the public right-of-way next to the wall; and the cleaning, sandblasting, and painting of the wall deemed necessary to remove or cover graffiti.
- All streetlights within the residential development and perimeter streets. Maintenance and servicing of the street lighting may include bulb replacement, energy costs and repair or replacement of related equipment or facilities as required.

Zone 02 is located south of Morrill Road, east of Oakdale Road, generally north of Novi Drive and west of the MID Main Canal. This Zone includes all the residential parcels and subdivisions known as Hayes No. 2; Stonebridge at Crossroads; and Morrill Ranch. These subdivisions and parcels include three hundred and seven (307) single-family residential properties. In addition to Regional improvements, these properties benefit and are assessed for the following:

- The parkway landscaping on the south side of Morrill Avenue from the northwest corner of the Morrill Ranch subdivision (Oakdale Road) east to the northeast corner of the Stonebridge at Crossroads subdivision (approximately 250 feet west of the MID Main Canal). The partially completed landscape improvement area includes:
- Approximately 2,525 linear feet of moderate density shrubs and trees, totaling an estimated 12,625 square feet;
- Approximately 1,825 linear feet of turf and trees, totaling an estimated 9,125 square feet;
- An estimated 110 to 140 trees;
- Approximately 12,700 square feet of sidewalk and hardscape amenities; and
- An estimated 3,500 linear feet of parkway fencing that is adjacent to the subdivisions on Morrill Avenue and Oakdale Road.
- All streetlights within the residential development and perimeter streets. Maintenance and servicing of the street lighting may include bulb replacement, energy costs and repair or replacement of related equipment or facilities as required.

Zone 03 currently includes all properties within the District boundaries that are not included within Zones 01, 02 or 04. The parcels within this zone are currently only assessed for their proportional share of the Regional Improvements. As properties within this Zone are developed and subdivided, they will likely be incorporated into one of the District's other local Zones or a new local Zone may be established to address their specific improvement and benefits. In either case, these changes will facilitate increased assessments for the affected properties. All such assessment increases will be subject to the substantive and procedural requirements of Article XIID.

Zone 04 incorporates a significant portion of the residential developments within the District and generally includes all residential subdivisions south and east of Zone 02 and north of the Commercial Center. The parcels and subdivisions of Zone 04 (including the four new residential subdivisions known as the Heartlands, the Cottages, the Gables and Prospector's Court) represent one thousand six hundred and eleven (1,611) single-family residential parcels, two (2) multifamily parcels, and one hundred seventeen (117) nonresidential or vacant parcels. In addition to Regional improvements, these properties benefit and are assessed for the following:

- Parkway landscaping including planting areas and turf along portions of Crawford Road and Roselle Avenue;
- Parkway landscaping (planting area, turf stamped concrete, and entryway, totaling approximately 131,534 square feet (57,110 square feet for planting area, 68,324 square feet for turf and 6,100 square feet for stamped concrete));

Entrance medians, plant and turf areas and stamped concrete on a traffic circle located on Crawford Road and turf areas on Chancellor Way roundabouts;

- Split sidewalk landscaping on the north side of Prospector Way and the east side of Saxon Way adjacent to the school/park site and on the north side of Blacksand Creek Way adjacent to Hetch Hetchy;
- Entryway monument into the District at Roselle Avenue and Oakdale Road;
- All streetlights within the residential development and perimeter streets. Maintenance and servicing of the street lighting may include bulb replacement, energy costs and repair or replacement of related equipment or facilities as required.

PART II — METHOD OF APPORTIONMENT

A. GENERAL

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of public lights, landscaping, parks, open space areas and appurtenant facilities. The 1972 Act requires that the cost of these improvements be levied according to benefit rather than assessed value:

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

The formula used for calculating all assessments for this District reflects the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on benefit to each parcel. In addition, pursuant to *Article XIID, Section 4* of the California State Constitution a parcel’s assessment may not exceed the reasonable cost of the proportional special benefit conferred on that parcel and provides that only special benefits may be assessed.

B. BENEFIT ANALYSIS

Each of the proposed improvements, the associated costs and assessments have been identified and allocated based on special benefit pursuant to the provisions of the Constitution and 1972 Act. All improvements provided by this District have been identified as necessary, required and/or desired for the orderly development of the properties within the District to their full potential, consistent with the proposed development plans and applicable portions of the City General Plan. As such, these improvements would be necessary and required of individual property owners and the ongoing operation, servicing and maintenance of these improvements would be the financial obligation of those properties. Therefore, the majority of the District improvements and the annual

costs of ensuring the maintenance and operation of the improvements are considered a direct and special benefit to the properties within the District.

The method of apportionment (method of assessment) is based on the premise that each assessed parcel within the District receives benefit from specific improvements. The desirability and security of properties is enhanced by the presence of street lighting, well maintained landscaping, parks and open space areas in close proximity to those properties.

Special Benefits

The special benefits associated with all landscaping, parks, trails and open space improvements are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space, parks, trails, open space areas and landscaping.
- Environmental enhancement through improved erosion resistance, dust and debris control, and fire prevention.
- Increased sense of pride in ownership of property within the District resulting from well-maintained improvements associated with the properties.
- Enhanced quality of life and recreational opportunities through well maintained recreational facilities, equipment, green belts and trails.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

The special benefits of street lighting are the convenience, safety, and security of property, improvements, and goods. Specifically:

- Enhanced deterrence of crime and the aid to police protection.
- Increased nighttime safety on roads and streets.
- Improved ability of pedestrians and motorists to see.
- Improved ingress and egress to property.
- Reduced vandalism and other criminal act and damage to improvements or property.
- Improved traffic circulation and reduced nighttime accidents and personal property loss.

- Increased promotion of business during nighttime hours in the case of commercial properties.

All of the preceding special benefits contribute to a specific enhancement and desirability of each of the assessed parcels within the District.

General Benefit

The costs associated with a specific improvement that is considered a benefit to properties outside the District or to the public at large have been identified as general benefit and is not included in the District's annual assessments. In making this determination it should be noted that parkway; perimeter landscaping and interior landscaping throughout the City is provided and maintained by individual property owners, associations or another assessment district. The City does not typically maintain these types of improvements from General Fund Revenues and like similar improvements within the City, the ongoing maintenance of these improvements are clearly a special benefit to the properties associated with those improvements. However, due to either their location or purpose, it has been determined that portions of the improvement costs associated with the Community Park, traffic signals and medians along Oakdale Road provide not only a special benefit to properties within this District, but also provide a general benefit to the residents and property owners in the City as a whole. The determination of the amount of each improvement cost that is considered general benefit is based on different factors. General benefit costs for the Community Park (shown as General Benefit in the District Budget) have been determined based on an estimated service area as well as the availability of similar improvements in the City. For traffic signals and median landscaping, the allocation of special benefit cost versus general benefit costs is based on both the location of the improvements in relation to other properties in the area and estimated traffic circulation.

C. ASSESSMENT METHODOLOGY

The method of apportionment for this District calculates the receipt of special benefit from the respective improvements based on the actual or proposed land use of the parcels within the District. The net amount to be assessed upon parcels within the District for each improvement or type of improvement or service is apportioned among only those parcels that benefit from the particular improvement in proportion to a weighted special benefit calculation that equates each parcel's special benefits as compared to other parcels in the District that benefit from those same improvements. The benefit formula used to determine the assessment obligation is therefore based upon both the improvements that benefit the parcels within the District as well as the proposed land use of each property as compared to other parcels that benefit from those specific improvements, which is consistent with the provisions of the 1972 Act and *Article XIID, Section 4* of the Constitution.

Equivalent Dwelling Units:

To assess benefits equitably, it is necessary to relate the different type of parcel development to each other. The Equivalent Dwelling Unit method of assessment

apportionment uses the single-family home site as the basic unit of benefit and assessment. Each single-family home site is assigned one (1.0) Equivalent Dwelling Unit (“EDU”). All other land uses within the District are assigned a weighted EDU that equates the property’s specific development status, type of development (land use), and size (acres or units) to that of a single-family home site. The EDU method of apportioning benefit is typically seen as the most appropriate and equitable assessment methodology for districts formed under the 1972 Act, as the benefit to each parcel is apportioned as a function of land use type, size and development.

EDU Application by Land Use:

Single-Family Residential — This land use is defined as a fully subdivided residential home site with or without a structure. This land use is assessed 1.0 EDU per lot or parcel. This is the base value that all other land use types are compared and weighted against the special benefit received by the Single Family Residence, (i.e. 1.0 EDU).

Multi-Family Residential — This land use is defined as a fully subdivided residential parcel that has more than one residential unit developed on the property or is part of a development that is considered multiple-unit complex. This land use is assessed 0.75 EDU per unit. (Currently this land use is applicable to only the new development known as Prospector’s Court)

Planned-Residential Development — This land use is defined as any property not fully subdivided with a specific number of proposed single-family residential units or multi-family residential units to be developed on the parcel. This land use type is assessed at 1.0 EDU per planned single-family residential lot and or 0.75 EDU per multi-family residential unit.

Undefined Vacant Land — This land use is defined as property that is currently identified as vacant land, that is not actively being developed and/or is not directly adjacent to or associated with existing District improvements and infrastructure. This land use designation typically identifies rural vacant land. This land use is assessed at 1.0 EDU per parcel regardless of the size of the parcel.

Defined-Planned Vacant Land — This land use is defined as property that is currently identified as vacant land, but is either actively being developed and/or is directly adjacent to or associated with existing District improvements and infrastructure. This land use designation may include undeveloped residential or commercial properties that are part of an overall development plan. This land use is assessed at 1.0 EDU per acre. Parcels less than 1 acre are assigned a minimum of 1.0 EDU. Parcels over 50 acres are assigned a maximum of 50 EDU.

Developed Commercial — This land use is defined as property developed for either commercial or industrial use. This land use type is assessed at 4.0 EDU per acre. Parcels less than 0.25 acres are assigned a minimum of 1.0 EDU and there is no maximum acreage cap, as is the case with Vacant Commercial Property.

Recreational or Limited Commercial Use — This land use is defined as property used for recreational or commercial use that is not part of the improvements provided by the District. This land use classification may include but is not limited to golf courses, commercial parking lots or commercial properties that less than ten percent of the total acreage has been developed. This land use is assessed at 2.0 EDU per acre. Similar to commercial properties, there is no maximum acreage cap for this land use, but parcels less than 0.5 acres, are assigned a minimum 1.0 EDU.

Exempt Parcels — This land use identifies properties that are not assessed and are assigned 0.00 EDU. This land use classification may include but is not limited to lots or parcels identified as public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways, public greenbelts and parkways; utility rights-of-ways; common areas, sliver parcels and bifurcated lots or any other property that cannot be developed, park properties and other publicly owned that are part of the District improvements or that have little or no improvement value. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

The following table provides a listing of land use types, land use code designations, the Equivalent Dwelling Unit factor applied to that land use type, and the multiplying factor used to calculate each parcel's individual EDU.

Property Type	EDU	Multiplier
Single Family Residential	1	Per Unit/Lot/Parcel
Multifamily Residential	0.75	Per Unit
Planned-Residential Development	1	Per Planned Single Family Unit
	0.75	Per Planned Multi-Family Unit
Undefined Vacant Lot	1	Per Parcel
Defined Planned Vacant Lot	1	Per Acre
Developed Commercial	4	Per Acre
Recreational or Limited Commercial Use	2	Per Acre
Exempt	0	Per Parcel

Land Use Codes and Equivalent Dwelling Units

The benefit formula applied to parcels within the District is based on the preceding discussion of Equivalent Dwelling Units and the table above. Each parcel's EDU correlates the parcel's special benefit received as compared to all other parcels benefiting from the improvements.

The following formula is used to calculate each parcel's EDU (proportional benefit).

$$\text{Parcel Type EDU} \times \text{Acres or Units} = \text{Parcel's EDU}$$

The total number of EDU's is the sum of all individual EDU's applied to parcels that receive a special benefit from the District improvements. An assessment rate per EDU ("Rate") is established by taking the "Balance to Levy" established for each Zone of the District (including the Regional Improvements) and dividing the total EDU's of all parcels benefiting from those improvements. This calculated "Rate per EDU" is then applied back

to each parcel's assigned EDU to determine the parcel's proportionate benefit and assessment obligation for the improvement.

$$\begin{aligned} \text{Total Balance to Levy} / \text{Total EDU} &= \text{Rate per EDU} \\ \text{Rate per EDU} \times \text{Parcel EDU} &= \text{Parcel Levy Amount} \end{aligned}$$

The formulas described in the preceding description of calculating each parcel's Levy Amount is applied separately for both Regional (District-wide) Benefits and the Zone Benefits applicable to each parcel. The combined amount of the Regional and Zone assessment is the parcel's annual assessment amount (Levy) that will be submitted to the County for inclusion on the property tax roll.

D. ASSESSMENT RANGE FORMULA

Any new or increase in assessments require certain noticing and meeting requirements by law. Prior to the passage of Proposition 218, legislative changes in the Brown Act defined the definition of "new or increased assessment" to exclude certain conditions. These conditions included "any assessment that does not exceed an assessment formula or range of assessments previously adopted by the agency or approved by the voters in the area where the assessment is imposed." This definition and conditions were later confirmed through SB919 (Proposition 218 implementation statutes).

The purpose of establishing an assessment range formula is to provide for reasonable increases and inflationary adjustment to annual assessments without requiring costly noticing and mailing procedures, which could add to the District costs and assessments. Generally, if the proposed annual assessment (levy per unit or rate) for the current fiscal year is less than or equals to the "Maximum Assessment" (or "Adjusted Maximum Assessment"), then the proposed annual assessment is not considered an increased assessment. The Maximum Assessment for all assessments in this District is equal to the initial Assessment approved by property owners adjusted annually by the following criteria:

- Beginning in Fiscal Year 2002/03 and each fiscal year thereafter, the Maximum Assessment will be recalculated annually.
- The new adjusted Maximum Assessment for the year represents the prior year's Maximum Assessment adjusted by three percent (3.0%).
- The Maximum Assessment is adjusted each year independent of the annual assessment calculation. While the actual amount assessed may fluctuate each year, the maximum will continue to be increased by 3%, and in any given year the assessment may be applied at the Maximum Assessment.

Any proposed annual assessment (rate per EDU) less than or equal to this Maximum Assessment is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year. The City Council may reduce or freeze the Maximum Assessment at any time by amending the Engineer's Annual Report.

Although the Maximum Assessment will increase each year, the actual assessment may remain virtually unchanged. If the budget and assessments for the fiscal year does not require an increase, or the increase is less than the adjusted Maximum Assessment, then the required budget and the assessment may be approved by the City Council without a property owner balloting. If the budget and the assessments calculated requires an assessment greater than the adjusted Maximum Assessment, the assessment would be considered an assessment increase and to impose such an increase the City must comply with the provisions of *Article XIID, Section 4(c)* of the Constitution, which requires a public hearing and certain protest procedures including mailed notice of the public hearing and property owner protest balloting. Property owners through the balloting process must approve the proposed assessment increase before it can be imposed. If the proposed assessment is approved, then a new Maximum Assessment is established for the District. If the proposed assessment is not approved, the City Council may not levy an assessment greater than the adjusted Maximum Assessment previously established for the District.

PART III — DISTRICT BUDGETS

The following summarizes the District's adjusted Maximum Assessment Rates for Fiscal Year 2017/2018:

- The Maximum Assessment Rate for District-wide Improvements is \$235.94/EDU.
- The Maximum Assessment Rate for Zone 01 Improvements is \$77.11/EDU.
- The Maximum Assessment Rate for Zone 02 Improvements is \$85.38/EDU.
- The Maximum Assessment Rate for Zone 03 Improvements is \$0.00/EDU.
- The Maximum Assessment Rate for Zone 04 Improvements is \$88.20/EDU.

The Total Adjusted Maximum Assessment Rate applicable to parcels in each Zone is as follows:

- | | | |
|-----------|----------|--------------------|
| • Zone 01 | \$313.05 | (\$235.94+\$77.11) |
| • Zone 02 | \$321.32 | (\$235.94+\$85.38) |
| • Zone 03 | \$235.94 | (\$235.94+\$0.00) |
| • Zone 04 | \$324.14 | (\$235.94+\$88.20) |

The following page outlines the Crossroads Landscaping and Lighting District's proposed budget and assessments for Fiscal Year 2017/2018. The budget identifies the estimated expenses and cost allocation of the improvements for each of the District's Zone improvements to establish the proposed District assessments for Fiscal Year 2017/2018.

The Capital Improvement Project (CIP) fund is used to upgrade certain improvements within the District. These improvements have a useful life of five years or more and include:

- Roundabout improvements on Antique Rose Way
- Install benches, shade structures and playground improvements within Silva Community Park
- Install benches along the park trail
- Install shade structures within the Neighborhood Park
- Repair to sidewalks along Crawford Road
- Installation of benches along the basin on Homewood Way.
- Install public bathroom within the Neighborhood Park.

District Budget Fiscal Year 2017/2018

BUDGET ITEM	General Benefit	District Benefit	Zone 1	Zone 2	Zone 3	Zone 4	Total Budget

PART V — DISTRICT DIAGRAMS

The parcels within the Riverbank Crossroads Landscaping and Lighting District consist of all lots, parcels and subdivisions of land located in the development area known as the “Crossroads Specific Plan”. The following page provides a Boundary Diagram that provides an overview of the District’s location and identifies the exterior boundaries of the District as well as the Zones within the District. Together the Boundary Diagram and the Assessment Roll contained in Part V of this Report constitute the District’s Assessment Diagram for Fiscal Year 2017/2018. Details regarding the lines and dimensions of the parcels within the District are shown on the Stanislaus County Assessor’s Parcel Maps (APN Maps) and by reference the APN Maps are made part of this Report.

**MAP OF ASSESSED PARCELS WITHIN THE
RIVERBANK CROSSROADS LANDSCAPING AND LIGHTING DISTRICT
CITY OF RIVERBANK, COUNTY OF STANISLAUS, STATE OF CALIFORNIA**

**Riverbank Crossroads
Landscape and Lighting District**

PART VI — 2017/2018 ASSESSMENT ROLL

Parcel identification for each lot or parcel within the District shall be the parcel as shown on the Stanislaus County Secured Roll for the year in which this Report is prepared and reflective of the Assessor's Parcel Maps. A listing of parcels assessed within this District, along with the proposed assessment amounts is included in the following pages.

The assessments as approved will be submitted to the County Auditor/Controller to be included on the property tax roll for each parcel within the District. If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate contained in this Report as approved by the City Council.

APN	Zone	Zone EDU	District Wide Charge	Zone Charge	Total Charge*
